# Henry County Water Authority

1695 Hwy 20, West, McDonough, GA 30253  
www.hcwsa.com (770) 957-6659

December 4, 2013

Board of Directors, HCWSA  
Customers of the Henry County Water Authority  
And the Citizens of Henry County, Georgia

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the Henry County Water and Sewerage Authority for the fiscal year ended June 30, 2013. This report is the responsibility of the management of the Henry County Water Authority (HCWA), and was prepared in accordance with Generally Accepted Accounting Principles and in conformance with current accounting and financial reporting requirements and principles promulgated by the Governmental Accounting Standards Board (GASB). To the best of our knowledge and belief, the enclosed financial data is accurate in all material respects and fairly presents the financial position, results of operations and cash flows of the Authority. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included.

The Henry County Water Authority has established internal controls that we believe adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions and the preparation of financial statements and the accompanying information. Reasonable assurance infers that the cost of a control should not exceed the benefits likely to be derived from that control, and the evaluation of costs and benefits depends on judgments by management. HCWA is committed to evaluating and maintaining a strong system of internal controls.

The firm of Mauldin and Jenkins, LLC, Certified Public Accountants, conducted an independent audit on these financial statements in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States. As a result of the audit, Mauldin and Jenkins issued an unmodified (clean) opinion on the financial statements of the Authority for the year ending June 30, 2013. The auditor's report is located at the front of the financial section of this report.

In accordance with Generally Accepted Accounting Principles, a narrative introduction, overview, and analysis accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The Authority's MD&A is located immediately following the report of the independent auditors.

## **Organization of the Comprehensive Annual Financial Report**

It is anticipated that this Comprehensive Annual Financial Report (CAFR) may be read by a wide variety of people, and care has been taken to provide useful information, even to those who may not be familiar with the Authority. Toward that end, this report is presented in three major sections: Introductory, Financial and Statistical.

The introductory section is intended to familiarize the reader with the organizational structure of HCWA and the nature and scope of the services provided. This letter, together with a list of current HCWA board members and an organizational chart, following this letter comprise the introductory section.

The financial section includes the independent auditor's report on the basic financial statements, management's discussion and analysis (the "MD&A") of the Authority's overall financial position and results of operations, and the audited financial statements, including the accompanying note disclosures and required supplementary information.

The statistical section provides information regarding the Authority's economic condition and is divided into five sections: financial trends, revenue capacity, debt capacity, demographic and economic information, and other operating information.

## **Profile of HCWA**

### **General**

The Henry County Water Authority was founded in 1961 by an Act of the General Assembly of the State of Georgia, to "acquire, construct, and thereafter operate and maintain projects embracing sources of water supply and the distribution and sale of water and related facilities." The Act goes on to list the other duties of the Authority, including that to establish a sewer system (see the first paragraph under the section entitled "Other Relevant Information" concerning updated legislation enacted during the current fiscal year).

Thus, Henry County was able to begin the process of planning and constructing a water and sewerage system capable of accommodating the needs of local citizens, and protecting the watersheds in order to ensure clean sources of water for Henry County residents and businesses.

It was necessary for HCWA to purchase large tracts of land and develop its own reservoirs for source of water, as no available streams or lakes provided adequate supply. HCWA has developed five reservoirs, covering a combined total of 3,138 acres of water surface area, and holding approximately 18.1 billion gallons of water. With an average day finished water demand in Henry County of approximately 15.6 million gallons per day (MGD) during FY 2013, the reservoirs provide a 608 day supply of raw water after the downstream release requirement. This provides more than enough supply to weather an extended period of drought.

The reservoirs are at the south end of the County, and water is pumped significant distances across Henry County's 331 square miles. Over 1,400 miles of water mains have been constructed, making service available to most of the county, and serving over 56,000 customer water connections. Additionally, 29.5 million gallons of potable water can be stored in 9 elevated tanks, 4 ground water storage tanks plus the clear wells at the water plants.

The service area for HCWA is Henry County. A few customers in neighboring counties are also served, where subdivisions or drainage basins cross county lines. Henry County is located in the north central portion of the State of Georgia approximately 25 miles southeast of the City of Atlanta. Henry County is bordered on the north by DeKalb County, on the west by Clayton County, on the south by Spalding and Butts Counties, and on the east by Newton and Rockdale Counties. There are four municipalities within Henry County: Stockbridge, McDonough, Hampton, and Locust Grove. Each municipality operates its own water and sewerage system. However, HCWA does supply most of the water requirements needed by Stockbridge and Hampton and some of the water requirements for McDonough and Locust Grove.

All water meters are read on a monthly basis utilizing a radio read system. That is, an electronic device on each meter sends a signal identifying the meter and the current reading to a device in our meter reading truck as it drives past. Those readings are then electronically uploaded into our Customer Relationship Management (CRM) software and bills are generated based on the increase of the current reading over the previous reading (customer's consumption). Thus, readings can be gathered more quickly, actual readings are used for the bills (no estimates), and the possibility of manual error is greatly reduced if not eliminated. All water customers have water meters and are billed based on their consumption. Sewerage fees, for those customers who also have sewerage service, are based on water consumption.

The sewer system, while serving some of the higher density areas in the county, is not as extensive as the water system. HCWA currently serves over 19,000 customer sewer connections with approximately 445 miles of sewer mains, 30 sewerage lift stations and 4 waste water treatment plants. Currently, the Authority's total permitted sewerage treatment capacity is 12.75 MGD. The average flow to the Authority's wastewater treatment plants during FY2013 was 5.4 MGD.

## **Governance**

HCWA is governed by a five member Board. Each Board member is appointed by the respective County Commissioner of his district, and serves a 2 year term plus any additional time until their successors are appointed and qualified. The Board holds regularly monthly meetings at the administrative offices of the Authority located in McDonough, GA. The daily operations of the Authority are the responsibility of the General Manager, who reports to the Board.

## **Accounting and Financial Reporting**

The Authority operates as an enterprise fund. That is, the Authority is accounted for as a separate accounting entity with a self-balancing set of accounts. Revenues are recorded when earned and expenses are recorded at the time the liability is incurred, similar to accounting procedures used by private business. The accounting of the Authority complies with all pronouncements of the Governmental Accounting Standards Board. The Authority's Revenue Bond Resolutions also prescribe an accounting structure and practices, which the Authority adheres to. Please see Note # 1 in 'Notes to Financial Statements' for further overview of the significant accounting policies used by the Authority. The Authority's financial information is included within the Henry County, Georgia financial statements as a discretely presented component unit.

## **Budgetary Controls**

The Authority believes that budget preparation and implementation are important in maintaining fiscal responsibility and accountability, and it is a good business practice to conduct the budgetary process annually. Accordingly, an operating budget is prepared by management and approved by the HCWA Board on an annual basis. The purpose of the budget process is to authorize and control expenditures, evaluate projected revenue to determine the Authority's ability to meet its obligations under various bond covenants and to provide analysis for planning purposes.

## **Other Relevant Information**

### **General**

In April 2013, new legislation was signed into law, changing the Authority's name from 'Henry County Water and Sewerage Authority' to simply 'Henry County Water Authority'. The legislation more clearly defines and enhances the Authority's ability to provide water and sewer services to its current and future customer base and to protect natural resources and local water supply.

Throughout the year, both of the Authority's water treatment plants and all wastewater treatment plants in operation maintained 100% compliance with all Federal and State regulations and permit requirements. The water distribution system and the sewerage collection system were also 100% compliant with all regulations. The Authority's Industrial Monitoring Department required all commercial and industrial customers to meet the discharge requirements delimited in the Sewer Use Ordinance.

The Authority's Walnut Creek Water Reclamation Facility won Plant of the Year Award in its category from the Georgia Association of Water Professionals (GAWP). The Authority also received GAWP Platinum Awards for six straight years of 100% permit compliance at both Tussahaw and Towaliga Water Treatment Plants, which have each received Plant of the Year Awards on two separate occasions in the recent past. Additionally, the Authority is

one of only 31 Water Utilities in Georgia to achieve the 'WaterFirst Community' designation from the Georgia Department of Community Affairs.

The Authority maintains an aggressive preventive maintenance program for all water plants, storage tanks, booster pump stations, water transmission, distribution and service lines, wastewater treatment plants, lift stations, sewerage gravity lines and force mains, reservoirs, dams, spillways, and other reservoir appurtenances. The Authority vigilantly monitors and maintains erosion control at reservoirs, land application sprayfields, and water and wastewater construction sites.

## **Current Economic Environment**

Rapid growth had been the hallmark of Henry County for three decades leading up to 2007. It took just 5 years, from 1980 till 1985 for the Authority's customer base to double to 6,287. Six years later in 1991, the customer base had doubled again to 12,623, and just seven years after that in 1998, the customer count had doubled again to 25,788. Nine years later in 2007, the customer base had doubled yet again to 53,211. The Authority was on a very fast track to build facilities to keep pace with this explosive growth. Then, in 2007, the rate of customer growth began to slow. Whereas prior the 2007 a 10% annual growth rate was common, in recent years the growth rate has been less than 1%.

National Economic Downturn - Prior to the national economic downturn, Henry County was one of the fastest growing counties in the United States. And as you would expect in a rapidly growing county, one of Henry County's biggest economic engines was the housing industry. The Authority typically set more than 3,000 meters at newly constructed homes annually. During our fiscal year ending June 30, 2007, the economic downturn became evident in Henry County, and there was a dramatic decrease in new meter sets in that year and in the years following. At the low point, only 259 new meters were set in 2010 and another 259 in 2011. FY 2012 saw a slight uptick with 282 new meters and FY 2013 shows a little more promise of recovery with 468 new meter sets. The Authority has seen a significant reduction in connection fees and property tax revenue as a result of the economic downturn.

Water Conservation – This concept is a major factor in the political, regulatory and financial environment that we, as a public water provider, are currently in. This is a large part of the reason why average daily water production numbers have not increased in 7 years. Since 2006, water production has essentially remained at approximately 16.5 mgd (million gallons per day), except for the current fiscal year when the number actually decreased to 15.6 mgd. The concept of water conservation took hold in our State, and in particular in the metro Atlanta area, for a couple of reasons:

1. *Drought* - During the calendar years of 2007 and 2008, the northern half of the State of Georgia experienced drought conditions which prompted the State to enact water conservation measures, including outdoor water use restrictions, which all water providers in the affected area were required to follow. Operational issues at Lake Lanier seem to have played a key role in the State's decisions. The Henry County Water Authority enacted all conservation measures the State required, even though the drought of 2007 and 2008 did not impact Henry County to the same extent as it did those who depend on water supplies in the Chattahoochee basin. In fact, with our newly constructed Tussahaw Reservoir that was filling during this time, the Authority never had less than one year's supply of raw water available. The State realized that in order to deal with future drought conditions, conservation measures should be in place before a drought occurs, and thus has continued a modified program of permanent outdoor water use restrictions that we abide by today.
2. *Tri-State Water Dispute* - The States of Georgia, Florida and Alabama are currently engaged in an ongoing dispute over use of the water in Lakes Lanier and Allatoona, and the Chattahoochee River. These are the primary sources of drinking water for the metro Atlanta area. The State of Georgia realized the need to exercise good stewardship of these water resources and be able to demonstrate that they are doing so to our neighboring States. However, the Henry County Water Authority is not dependent on these water sources, as over 99% of the water supply of Henry County comes from reservoirs developed by the Authority.

ty in the southern part of Henry County. The Authority only purchases a small amount of water (less than 1%) from neighboring DeKalb County (DeKalb draws water from the Chattahoochee River) to serve a small high elevation area in the north part of Henry County. Nonetheless, Henry County is part of the metro Atlanta area and is thus included in water conservation regulations.

Because of the economic downturn and water conservation, our long range projections for water and sewer revenue, as well as developmental impact fees and connection fees were revised downward to reflect our best estimate of future growth and consumption. Although water conservation can foster some long range benefits, such as delaying the need to develop the next expensive water supply source, water providers are faced with challenges as revenue from water sales are less than original projections.

*Rainfall totals* – Rainfall totals undoubtedly were a significant reason for the reduction in average daily water production during FY 2013. The national weather service reported 55.54 inches of rainfall in the Atlanta area during our FY 2013, compared to 33.91 inches during our prior fiscal year. Revenue from water sales during FY 2013 was 0.5% less than the previous year, in spite of a 5% rate increase.

## Outlook

In the years leading up to 2007, the Authority was constructing system improvements and setting new meters as fast as possible to keep up with the rampant pace of growth. Then, beginning in 2007 the Authority began revising plans and projections downward and putting austerity measures in place as a result of the economic downturn. In 2013, we have seen some indications that the severity of the economic downturn is easing. More new meters are being set, the vacant home inventory is decreasing, foreclosures and bankruptcies seems to be decreasing, and the property tax digest value increased slightly in our FY 2014 (after 4 years of decline).

It is still too early to project that the recession is over and that we are now entering into a time of moderate growth. However, the Authority must be ready to accommodate continued moderate growth or withstand further economic depressed conditions, whichever occurs. Fortunately, the Authority's cash flow position is positive, bad debt write-offs are negligible, staffing levels are adequate, most of our facilities are in good to excellent condition and have excess capacity to meet additional demand, and there does not appear to be a need to add additional debt in the future. In short, the Authority is in as good a position as possible to respond to any economic condition.

Henry County has vast amounts of undeveloped land, is very favorably located just south of Atlanta and the Atlanta Airport, has seven exits on Interstate I-75, has adequate water supplies, can boast of a good school system, has been able to make numerous improvements using special purpose local option tax, enjoys a mild climate, and is well known among the State's best developers. The challenge for the Authority is to have water and sewerage infrastructure in place just in time to meet increased demand, but not too soon thus adding additional debt service and operational costs to the budget before the additional demand is there to pay for it. Since some facilities can take multiple years to plan and construct, projecting the timing of increased demand on our water and sewerage system is of critical importance, even though difficult to predict.

## Long Term Financial Considerations

During FY 2013 the Authority issued two new revenue bonds, series 2012A and 2013, for the sole purpose of refinancing existing debt. Since 2005, inclusive of the two refinancings done this year, the Authority has achieved over \$20 million gross savings (\$15 million in net present value savings), as show in the table below:

Issue	Par Amount	Final Maturity	Gross Savings	NPV Savings
2005	\$ 51,485,000	2030	\$ 6,548,569	\$ 4,674,204
2007	33,505,000	2026	2,626,622	1,801,045
2010	29,785,000	2026	2,252,186	1,333,623
2012	17,950,000	2030	3,469,109	2,483,743
2012A	17,465,000	2018	1,629,766	1,584,359
2013	70,100,000	2028	3,639,617	3,128,107
	<u>\$ 220,290,000</u>		<u>\$ 20,165,869</u>	<u>\$ 15,005,081</u>

It appears that all revenue bonds and Georgia Environmental Finance Authority (GEFA) loans that were candidates for refinancing have, in fact been refinanced. No further refinancing or restructuring of our debt is anticipated at this time.

## Major Initiatives

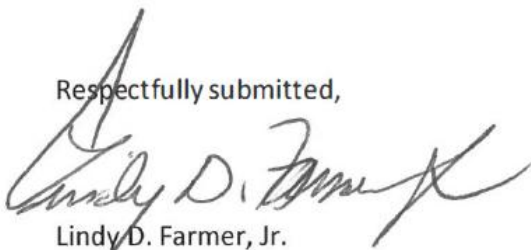

The Authority revised its long term capital improvement plan during the previous fiscal year, reflecting continuation of an anticipated slower pace of development. The Plan lists projects totaling more than \$537 million (not adjusted for inflation), through the year 2035. Authority staff carefully evaluate on-going and up-coming projects on a monthly basis. The Authority has adjusted the timing of many projects in the capital improvement plan in an effort to match them with anticipated growth in the customer base that would create the need for the project. The Authority has a history of excellent planning and successfully executing those plans. As a result, adequate facilities are in place to meet the drinking water and waste water treatment needs of Henry County.

One of the Authority's four wastewater treatment plants, Springdale WWTP, was taken out of service during FY 2013 in order to evaluate the condition of this older Plant and determine whether to rehabilitate part or all of it for continued operations, or to decommission it. At a recent Board Meeting, the Authority decided to decommission the Springdale WWTP. The flow that was going to Springdale was diverted to Walnut Creek WWTP.

## Acknowledgements

We express our thanks to the management of each department of the Authority, all of whom have adhered to sound practices to assure that transactions are properly accounted for. Thanks should also be expressed to the staff of the Finance Department for their commitment and dedication to the financial integrity of the Authority that makes this report possible. Finally, a great deal of thanks is due to the Board of the Authority, who diligently consider all aspects of each issue brought before them, keeping the best interest of the citizens of Henry County foremost in mind, and never losing sight of the 'big picture' when making decisions. Their support has been and continues to be of paramount importance to financial integrity of the Authority.

## INDEPENDENT AUDITOR'S REPORT

---

**To the Board of Directors of the  
Henry County Water Authority  
McDonough, Georgia**

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the **Henry County Water Authority** (the "Authority"), a component unit of Henry County, Georgia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

---

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Henry County Water Authority, a component unit of Henry County, Georgia, as of June 30, 2013, and the changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As discussed in Note 1, the Authority implemented Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, as of July 1, 2012. Our opinion is not modified with respect to this matter.

***Other Matters******Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 4 through 12) and the Schedule of Funding Progress on pages 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Other Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The introductory section and the statistical section listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

---

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2013, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

# HENRY COUNTY WATER AUTHORITY

## MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Henry County Water Authority (the "Authority"), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with the financial statements and notes to the financial statements.

### Proprietary Fund Accounting and Reporting

The Authority operates as a single fund in a business-like manner. Thus, the Authority uses the accrual approach to account for and report financial transactions. This means that revenues are recognized as soon as they are earned and expenses are recognized as soon as the liability is incurred, regardless of the timing of related cash inflows and outflows. All assets and liabilities that are measurable and probable are included in the financial statements. The full acquisition costs of all capital assets are included in the Statement of Net Position and are depreciated over their estimated useful life. Consequently, the Authority's accounting practices generally resemble a commercial entity's approach.

### Overview of the Financial Statements

**Net Position:** The following table reflects the overall financial condition of the Authority as of the last two fiscal years. Current plus restricted assets increased from the prior year by \$3.7 million. Capital and other long-term assets decreased, primarily because the increase in accumulated depreciation of \$26.2 million was greater than the \$4.2 million increase in capital assets before depreciation.

Long term liabilities decreased by \$12.0 million, primarily due to payments made on revenue bonds and Georgia Environmental Facilities Authority (GEFA) loans. Two revenue bonds were issued during the year (discussed in further detail in the MD&A section entitled "Debt Administration") for the sole purpose of refunding existing debt.

	<u>2013</u>	<u>2012</u>
Current assets	\$ 10,284,517	\$ 9,704,413
Restricted assets	70,777,516	67,688,545
Capital assets	426,034,455	448,057,231
Other long-term assets	<u>7,775,866</u>	<u>8,403,118</u>
Total assets	<u>514,872,354</u>	<u>533,853,307</u>
Current liabilities	20,144,979	20,673,517
Long-term liabilities	<u>252,880,723</u>	<u>264,916,855</u>
Total liabilities	<u>273,025,702</u>	<u>285,590,372</u>
Net investment in capital assets	200,409,094	205,280,042
Restricted for debt service	33,595,825	34,946,383
Unrestricted	<u>7,841,733</u>	<u>8,036,510</u>
Total net position	<u>\$ 241,846,652</u>	<u>\$ 248,262,935</u>

**MANAGEMENT’S DISCUSSION AND ANALYSIS**

---

**Financial Statements (Continued)**

The expansion of the Authority’s water and sewer infrastructure has been driven by the explosive rate of growth in population in Henry County. The graph below shows the number of Authority water customers from 1990 to 2013. The pace of the increase has leveled off substantially over the last six years. During the six year period since FY 2007, the Authority has added just 2,649 new customers to the system, compared to adding 18,297 new customers during the six year period leading up to FY 2007.

The Authority carries a significant amount of debt relative to net position. This was necessary in order to construct system improvements needed for the pre-2008 rapidly increasing customer base. The number of water customer connections to the Authority’s system has increased from 11,557 in 1990 to 55,860 in 2013. Large tracks of developable land, formerly farmland, located along Interstate 75 (with 7 exits in Henry County) just south of Atlanta and the Atlanta airport were, no doubt, among the factors contributing to the growth of the county.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

Total net position, ending	\$ 241,846,652	\$ 248,262,935

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Financial Statements (Continued)

Water revenues – Water rates were 5% higher in FY 13 than in the previous year. However, the average daily flow (water demand) for FY 2013 was 5.5% less than the previous year – 15.6 million gallons per day (mgd) in FY 2013 compared to 16.5 mgd for the previous year. Higher than normal rainfall amounts contributed to the decreased demand. Thus, decreased demand offset the rate increase to yield net revenue approximately equal to the previous year. All water is metered and sold at a monthly base charge plus a usage rate per thousand gallons. The residential rates in place at June 30, 2013, are:

- \$11.80 per month base charge (household size meter)
- \$4.46 per thousand gallons for the first 6,000 gallons
- \$6.07 per thousand gallons for the next 4,000 gallons
- \$8.87 per thousand gallons for all usage above 10,000 gallons.

Sewerage charges are based on metered water usage. Rates for FY 2013 were 5% higher than the previous year. Sewerage is not charged for irrigation meters. The residential rates in place at June 30, 2013, are:

- \$11.80 per month base charge
- \$4.46 per thousand gallons for the first 6,000 gallons
- \$6.07 per thousand gallons for all usage above 6,000 gallons

Approximately  $\frac{1}{3}$  of the Authority's water customers are also sewer customers. However, this percentage is growing as Henry County transforms to a more urbanized county, and most new subdivisions and commercial developments require public sewer.

Connection fees - A connection fee, approximating the cost of the water meter equipment, is required for all new connections onto the system. The current charge for a standard  $\frac{3}{4}$  inch meter is \$240 (the charge is more for larger meters). In addition, if the Authority is required to tap into the water main and run the service line to the meter, the Authority charges a fee to recover the cost for doing so. Connection fees have risen for two consecutive years from a low of \$104,000 in FY 2011.

Other fees and charges - This line item includes a 10% fee for late payments made by customers, which totaled \$589,000 in FY 2013. A \$50 fee is also required to restore service to customers who have had their water service cut off for non-payment. During the year, approximately \$541,000 was collected for that. Bad check fees, damage and tampering fees, plan review fees, fishing permits and various other fees, are also credited to this line.

Water treatment & water purchase - This is the cost to operate the Authority's two water treatment plants, having a permitted capacity totaling 37 million gallons per day (mgd), plus nine elevated water storage tanks, four ground storage tanks and booster pump stations. Actual water production during FY 2013 averaged 15.6 million gallons per day (mgd), compared to 16.6 mgd the previous year. In addition to its finished water production capability, contracts with neighboring Clayton and DeKalb counties enable the Authority to purchase finished water on an as needed basis. In fiscal year 2013, the Authority produced more than 99% of its total water requirements and purchased less than 1%.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Financial Statements (Continued)

The water treatment line for FY 2013 is 21.5% less than the previous year. At the beginning of FY 2013, it was decided to merge the personnel responsible for repairs and maintenance of water treatment facilities (9 employees) into an existing repairs and maintenance department. The purpose of this move was solely to achieve greater operational efficiency. This move has the effect of transferring costs from the water treatment line to the repairs and maintenance line. In FY 2012, before the transfer, these employees and their associated costs amounted to 21.8% of the water treatment line.

Customer Service and Connection - This is the cost of the Customer Service Department including the field Service technicians. All meters are read electronically (radio read) each month and customers receive a monthly statement based on that reading.

Wastewater treatment – The Authority owns four wastewater treatment plants. These plants together treated an average of 5.4 million gallons of sewerage per day during FY 2013, just as they did the previous year. One of the four plants was shut down for all 12 months of FY 2013 in order to evaluate the condition of this older plant. The flow that would normally go to this plant was diverted to a different plant. Even though, overall, the same wastewater volume was treated in FY 2013 as in FY 2012, it is less expensive to operate three plants than four plants, and the numbers on this line reflect that.

Repairs and maintenance - This is comprised of the following:

	<u>2013</u>	<u>2012</u>	<u>Difference</u>
Purchasing and inventory	\$ 511,192	\$ 473,282	\$ 37,910
Vehicle maintenance	727,773	802,548	(74,775)
Security & maintenance	416,464	455,907	(39,443)
Sewer line repair & maintenance	3,646,839	2,654,598	992,241
Industrial monitoring	534,262	429,499	104,763
Reservoir and grounds	823,153	819,319	3,834
Water line repair & maintenance	<u>2,807,684</u>	<u>2,904,277</u>	<u>(96,593)</u>
Total	<u>\$ 9,467,367</u>	<u>\$ 8,539,430</u>	<u>\$ 927,937</u>

The significant increase in sewer line repair and maintenance is due to transferring a function (repair and maintenance of the water treatment plants), inclusive of the employees responsible for that function, out of the water treatment line and into this one. This line increased by \$1 million, while the water treatment line correspondingly decreased by a little more than \$1 million as a result.

Part of the increase in industrial monitoring is due to temporarily increasing the staff by the addition of an employee who will assume the role of department manager when the existing department manager retired during FY 2014.

Administration and Engineering - This line item includes Administration, Finance, Human Resources, Engineering, Inspections, Geographic Information Systems (GIS) and property & liability insurance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Financial Statements (Continued)

Depreciation - This is, by far, the Authority's single largest expense line item, accounting for almost 50% of the total operating expenses. The Authority owns \$674 million in fixed assets that are subject to annual depreciation. Straight line depreciation is used over the life expectancy of the asset which ranges from three to 50 years.

Real property taxes - The Authority receives a two-mill tax levy on all taxable property within the boundaries of Henry County. The Joint Resolutions of Henry County and the Authority to issue Revenue Bonds contains a covenant to levy the two mill tax until all Revenue Bonds are paid in full, or provision is made therefore. The final maturity on currently outstanding Revenue Bonds is Feb 1, 2030. Henry County has seen substantial increases in the tax digest from year to year leading up through FY 2009. However, for the last four consecutive years, the tax digest has decreased, reflecting lower property valuations. Real property tax revenue in FY 2013 is 13% less than the previous year and 32% less than real property tax revenue in FY 2009, when the digest was at its highest.

Motor vehicle and other taxes - These taxes, like Real property taxes, are part of the two mill tax levy that is required to be collected by the Joint Revenue Bond Resolution mentioned above.

Interest Income - Funds are invested as permitted in accordance with Georgia Code Section 36-80-3. As interest rates have continued to drastically decrease, so has our Interest Income. Bank charges of \$89,459 are netted on this line against interest earnings of \$160,051.

Interest expense and fiscal charges:

	2013	2012
Revenue bond interest expense	<b>\$ 6,683,386</b>	\$ 7,186,963
GEFA interest expense	<b>3,461,052</b>	3,820,209
Amortization of issuance costs	<b>(14,917)</b>	93,213
Fiscal agent fees	<b>3,140</b>	3,173
Total	<b><u>\$ 10,132,661</u></b>	<b><u>\$ 11,103,558</u></b>

Other non-operating revenues – Over the past four years, this category averaged \$268,000 per year (inclusive of the \$428,000 last year). A determination was made to move the account in this category to “Other Fees and Charges”.

Capital Contributions consist of the items listed in the table on the following page. The Authority assesses Impact Fees designed to recover a fair proportionate share of the costs of system improvements needed to serve new growth and development. Anyone subscribing for initial use of water service pays \$700 per equivalent dwelling unit (EDU), and anyone initially connecting onto the sewer system pays \$2,700 per EDU. The Authority defines one EDU to be 300 gallons per household per day. Impact fees are only expended for qualifying system improvements and to make debt service payments on such improvements.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Financial Statements (Continued)

Contributions for project costs are paid to the Authority to cover the expense of improvements made to serve specific developments. Contributions in kind represent the value of assets deeded over to the Authority by developers

	<b>2013</b>	2012
Impact fees	<b>\$ 1,516,803</b>	\$ 1,514,750
Contributions for project costs	<b>136,210</b>	1,406,524
Contributions in kind	<b>(432,360)</b>	465,647
Total	<b><u>\$ 1,220,653</u></b>	<b><u>\$ 3,386,921</u></b>

As the graph below shows, capital contributions in recent years have decreased significantly from a high point of \$30.5 million reached in 2007, reflecting a steep decline in the construction of new houses and commercial development.

### Capital Asset and Debt Administration

**Capital Assets:** The Authority's investment in capital assets as of June 30, 2013 amounts to \$426,034,455 (net of accumulated depreciation). This investment in capital assets includes land and easements, 5 reservoirs, buildings, two water treatment plants, water storage tanks, wastewater treatment plants, system improvements, construction in progress, vehicles and equipment. The Authority added 8.8 miles of water main and 1.27 miles of sewage main during FY 2013.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Capital Asset and Debt Administration (Continued)

Significant capital events during the current fiscal year included the following:

- Completed water and sewer line extensions, rehabilitation and relocation projects totaling \$2.6 million in FY 2013.
- Completed the final punch list items on the expansion of Walnut Creek Water Reclamation Facility and put the expanded plant into operation.
- Completed construction of Tussahaw Transmission Main (\$2.4 million paid in FY 2013).
- Completed other capital improvements totaling approximately \$1.1 million in FY 2013.

Additional information on the Authority's capital assets can be found in Note 4 of these financial statements.

**Debt Administration:** As an Authority created by an act of the General Assembly of the State of Georgia, long-term borrowing by the Authority is provided through Revenue Bonds issued by the Authority and debt incurred to the Georgia Environmental Facilities Authority (GEFA).

In November 2012, the Authority issued \$17,465,000 Revenue Bonds at an average yield of .6576% and a final maturity of February 2018. The proceeds from these bonds were used to refund the outstanding balance of the Authority's 2002A Revenue Bonds with the same final maturity date of 2018. The sole purpose of the 2012A Issue was to achieve a reduction in total debt service payments. The 8.8% net present value savings from the refinancing exceeded \$1.5 million.

In April 2013, the Authority issued \$70,100,000 junior lien revenue bonds at an average yield of 2.1602% and a final maturity of February 2028. The proceeds from these bonds were used to refund the entire remaining balance of four state revolving loan fund loans held by the Georgia Environmental Facilities Authority (GEFA). The maturity dates of the 2013 bonds match the payment dates of the GEFA loans as closely as practicable. The sole purpose of the 2013 issue was to achieve a reduction in debt service payments. The 5.476% net present value savings from the refinancing exceeded \$3.8 million.

The Authority's Aa2 rating from Moody's Investor Services was unchanged during the year. Additional information on the Authority's long term debt can be found in Note 5 of these financial statements.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### **Currently Known Conditions Affecting Future Operations**

Revenue the Authority receives from real property taxes has decreased for four consecutive years, due to reduced values on the Henry County Tax Digest. The Authority received \$4.3 million less in real property taxes in FY 2013 than it did in FY 2009, the year before the Tax Digest began to fall. However, after four years of decline, real property tax due the Authority as reported by the Henry County Tax Commissioner's Office in September 2013, is slightly higher than tax from the prior year.

In April 2012, the State of Georgia enacted House Bill 386. Part of this law deals with the way motor vehicles will be taxed in the future. Vehicles purchased prior to January 1, 2012 will continue to pay ad valorem tax each year. Vehicles purchased after March 1, 2013 will pay a one-time title fee instead of sales tax and annual ad valorem tax. Vehicles purchased between January 1, 2012 and March 1, 2013 may elect to pay the one-time title fee instead of sales tax and annual ad valorem tax. The Authority recorded \$1,033,572 of revenue from motor vehicle taxes in FY 2013, which is a 5% increase from the prior year. However, it is unclear as to what effect House Bill 386 will have on taxes the Authority receives from motor vehicles in future years.

### **Further Information**

This financial overview is designed to provide readers with a general overview of the Authority's finances, and to show accountability. If you have questions or would like further information about this financial report, you may contact officials at the Authority located at 1695 Highway 20 West, McDonough, Georgia 30253.

# HENRY COUNTY WATER AUTHORITY

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Reporting Entity:**

The Henry County Water and Sewerage Authority (the "Authority"), a body politic, was duly created under the Acts of the General Assembly of the State of Georgia on March 28, 1961. The Authority formally changed its name during the fiscal year from the Henry County Water and Sewerage Authority to the Henry County Water Authority.

The Authority was created to provide water and related services throughout Henry County, Georgia (the "County"). The Authority currently serves approximately 56,000 customers in the City of McDonough and Henry County, Georgia. Related services include waste treatment, maintenance of water and sewer lines and installation of new water and sewer lines. The Authority is governed by a board of directors, which are appointed by Henry County. The County is obligated for the debt of the Authority, and therefore, a financial burden exists.

The Authority's financial information is included within Henry County, Georgia's financial statements as a discretely presented component unit.

#### **Fund Accounting:**

The Authority uses one fund to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions and activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The fund presented in this report is a Proprietary Fund Type - *Enterprise Fund*. Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business or where the board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

#### **Measurement Focus:**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operation of these funds are included in the statement of net position. Net position is segregated into capital assets net of related debt and restricted and unrestricted net asset components. Proprietary fund operating statements present increases (revenues) and decreases (expenses) in net total assets. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Basis of Presentation:**

The Authority's financial statements include the provisions of GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*; GASB Statement No. 37, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus*; and, Interpretation No. 6, *Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements*. The financial statements include a Management Discussion and Analysis (MD&A) section providing an analysis of the Authority's overall financial position and results of operations.

#### **Management Estimates:**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

#### **Revenues:**

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges for goods and services provided. Operating expenses include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### **Cash and Investments:**

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the Authority.

For purposes of the statement of cash flows, the Authority considers all highly liquid investments (including restricted assets) with an original maturity date of three months or less, and customer deposits to be cash equivalents.

Investments are stated at fair value.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Customer Accounts Receivable:**

Customer accounts receivable include billed but uncollected amounts and unbilled receivables based upon a pro rata amount of subsequent monthly billings. Allowances for doubtful accounts are maintained based on historical results adjusted to reflect current conditions.

#### **Property Taxes Receivable:**

Property taxes levied by the County in September 2012, and not collected by June 30, 2013, are recorded as receivables, net of estimated uncollectibles.

#### **Inventories:**

Inventories of materials and supplies are stated at cost, which approximates market, using the weighted average method.

#### **Restricted Assets:**

Certain proceeds of the revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants.

#### **Bond Premium, Discount and Issuance Cost:**

Bond premiums, discounts and issuance costs are deferred and amortized over the term of the bonds using the straight-line method, which is not materially different from the effective interest method. Bond premiums and discounts are presented as an addition and reduction, respectively, of the face amount of bonds payable, whereas issuance costs are recorded as deferred charges.

#### **Deferred Refunding Charges:**

Deferred refunding charges represent the difference between the carrying amount of defeased debt and its reacquisition price. Deferred refunding charges are amortized using the straight-line method over the remaining life of the defeased debt, had it not been refunded, or the life of the new debt, whichever is shorter. Unamortized deferred refunding charges are presented as a reduction of the face amount of bonds payable.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Capital Assets:

Capital assets are carried at cost. Assets with a cost of \$5,000 or greater are capitalized. Donated capital assets are recorded at their estimated fair value at the date of donation. These assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Land Improvements	10
Buildings	10 - 50
Infrastructure	10 - 50
Machinery and Equipment	3 - 50

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

#### Capital Contributions:

Capital contributions consist of capital grants or contributions from developers, customers and other funds.

#### Deferred Outflows / Inflows of Resources and Net Position:

The Authority implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* as of July 1, 2011. This new standard establishes accounting and financial reporting for deferred outflows / inflows of resources and the concept of net position as the residual of all other elements presented in a statement of net position.

## NOTES TO FINANCIAL STATEMENTS

---

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Deferred Outflows / Inflows of Resources and Net Position (Continued):

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Authority did not have any items that qualified for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority did not have any items that qualified for reporting in this category.

### NOTE 2. DEPOSITS AND INVESTMENTS

Total deposits and investments as of June 30, 2013, are summarized as follows:

As reported in the Statement of Net Position:

Cash	\$ 2,830,855
Restricted:	
Cash	27,708,512
Investments	43,069,004
	<u>\$ 73,608,371</u>
Cash deposited with financial institutions	\$ 30,539,367
Cash deposited with Georgia Fund 1	43,069,004
	<u>\$ 73,608,371</u>

**Credit risk.** State statutes authorize the Authority to invest in obligations of the State of Georgia or other states; obligations issued by the U.S. government; obligations fully insured or guaranteed by the U.S. government or by a government agency of the United States; obligations of any corporation of the U.S. government; prime bankers' acceptances; the local government investment pool established by state law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. As of June 30, 2013, the Authority's investment in Georgia Fund 1 was rated AAf by Standard & Poor's.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 2. DEPOSITS AND INVESTMENTS (CONTINUED)

At June 30, 2013, the Authority had the following investments:

Investment	Maturities	Fair Value
Georgia Fund 1	43 day weighted average	\$ 43,069,004
Total		\$ 43,069,004

**Georgia Fund 1**, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard & Poor's criteria for AAAf rated money market funds. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1.00 per share. The pool is regulated by the Georgia Office of State Treasurer.

**Interest Rate Risk.** The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Custodial Credit Risk – Deposits.** Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2013, all the Authority's funds which were uninsured were collateralized as required by the Official Code of Georgia Annotated (OCGA) Section 45-8-12(c) and as defined by GASB pronouncements.

### NOTE 3. RECEIVABLES

Receivables, including the applicable allowances for uncollectible accounts, consisted of the following at June 30, 2013:

<b>Receivables:</b>		
Taxes		\$ 479,911
Interest		12,114
Accounts		6,712,378
Gross receivables		7,204,403
Less allowance for uncollectibles		(503,965)
Net total receivables		\$ 6,700,438

## NOTES TO FINANCIAL STATEMENTS

### NOTE 4. CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2013 is as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Transfers</u>	<u>Ending Balance</u>

#### Revenue Bonds:

The County issues bonds which pledge Authority revenues derived from the operation of capital assets to pay debt service. Revenue bonds outstanding at June 30, 2013 are as follows:

<u>Interest Rate</u>	<u>Due Date</u>	
3.75%-6.15%	2020	\$ 12,140,000
4.90%-6.00%	2020	7,105,000
3.00%-5.25%	2030	46,335,000
5.00%	2026	29,785,000
2.00%-5.00%	2030	17,865,000
1.50%-4.00%	2018	17,465,000
2.16%	2028	70,100,000
		<u>200,795,000</u>
	Plus unamortized premiums	10,013,993
	Less unamortized discounts	(97,676)
	Less unamortized deferred charges - refunding	(7,073,102)
		<u>\$ 203,638,215</u>

## NOTES TO FINANCIAL STATEMENTS

### NOTE 5. LONG-TERM DEBT (CONTINUED)

#### Revenue Bonds: (Continued)

Revenue bond debt service requirements to maturity are as follows:

	Principal	Interest	Total
Fiscal year ending June 30,			
2014	\$ 9,515,000	\$ 7,687,046	\$ 17,202,046
2015	10,875,000	7,513,966	18,388,966
2016	11,165,000	7,206,785	18,371,785
2017	11,490,000	6,837,543	18,327,543
2018	11,790,000	6,484,758	18,274,758
2019-2023	61,705,000	25,529,905	87,234,905
2024-2028	62,285,000	13,791,650	76,076,650
2029-2030	21,970,000	1,658,625	23,628,625
Total	\$ 200,795,000	\$ 76,710,278	\$ 277,505,278

#### Notes Payable:

The Authority has also incurred debt to the Georgia Environmental Facilities Authority for construction of various water and sewer system projects. These notes are as follows at June 30, 2013:

Interest Rate	Term	Due Date	
3.00%	20 years	2028	\$ 15,792,438
3.00%	20 years	2030	18,237,523
3.00%	20 years	2033	20,215,316
3.00%	20 years	2032	1,665,765
			\$ 55,911,042

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 5. LONG-TERM DEBT (CONTINUED)**

**Notes Payable: (Continued)**

The Authority's notes payable debt service requirements to maturity are as follows:

Fiscal year ending June 30,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	\$ 2,441,216	\$ 1,644,006	\$ 4,085,222

Total	<u>\$ 55,911,042</u>	<u>\$ 17,537,172</u>	<u>\$ 73,448,214</u>

**NOTE 6. DEFINED BENEFIT PENSION PLAN**

**Plan Description**

On January 1, 2004, the Authority began sponsoring the Association County Commissioners of Georgia Restated Pension Plan for Henry County Water Authority Employees (The Plan), which is a defined benefit pension plan. The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. The Plan is affiliated with the Georgia Municipal Employees Benefit System Plan (The GMA Plan), an agent multiple-employer pension plan administered by The Segal Group, Inc. GMA, in its role as the Plan Sponsor, has the sole authority to amend the provisions of The GMA Plan. The Authority has the authority to amend the adoption agreement, which defines the specific benefit provisions of The Plan. Complete financial statements for the Georgia Municipal Association (GMA) Defined Benefit Pension Plan can be obtained from 201 Pryor Street, Atlanta, Georgia 30303-3606.

## NOTES TO FINANCIAL STATEMENTS

### NOTE 6. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### Funding Policy

The Authority is required to contribute an actuarially determined amount annually to The Plan's trust. The contribution amount is determined using actuarial methods and assumptions approved by The Segal Company Plan trustees and intended to satisfy the minimum contribution requirements as set forth in the State of Georgia statutes. Plan participants are required to contribute a percentage of their compensation to the plan. The required contribution percentage at June 30, 2013, was 5%.

#### Annual Pension Cost

The Authority's annual pension cost and net pension asset for the pension plan for the plan year ended June 30, 2013 are as follows:

<u>Derivation of Net Pension Asset</u>	<u>2013</u>
Annual Required Contribution	\$ 1,384,408
Interest on net pension asset	(114,372)
Adjustments to annual required contribution	37,684
Annual Pension Cost for Fiscal Year	<u>1,307,720</u>
Actual Contributions to Plan for Fiscal Year	<u>1,939,473</u>
Increase in Net Pension Asset	(631,753)
Net Pension Asset as of June 30, 2012	(4,294,986)
Net Pension Asset as of June 30, 2013	<u><u>\$ (4,926,739)</u></u>

The estimated interest adjustment has been calculated by applying a 2.75% rate of return to the beginning of the year balance of the net pension asset.

#### Basis of Valuation

Current Valuation Date	January 1, 2013
Annual Return on Invested Plan Assets	7.75%
Projected Annual Salary Increases	3.50%
Expected Annual Inflation	1.00%
Actuarial Value of Assets	Market Value
Actuarial Funding Method	Projected Unit Credit
Amortization Method	Closed Level Dollar
Remaining Amortization Period	29

7/1/2008	1,043,382	1,713,303	164.2	(2,549,495)
7/1/2009	1,216,547	1,789,604	147.1	(3,122,552)
7/1/2010	1,353,290	1,669,893	123.4	(3,439,155)
7/1/2011	1,298,844	1,724,047	132.7	(3,864,358)
7/1/2012	1,272,307	1,702,935	133.8	(4,294,986)
7/1/2013	1,307,720	1,939,473	148.3	(4,926,739)

<u>Measurement Date</u>	<u>Actuarial Value of Assets</u>	<u>Actuarial Accrued Liability</u>	<u>Unfunded Actuarial Accrued Liability</u>	<u>Funded Ratio</u>	<u>Covered Payroll</u>	<u>Unfunded Actuarial Accrued Liability as A Percentage of Covered Payroll</u>
12/31/2012	\$ 14,049,501	\$ 21,619,929	\$ 7,570,428	65.0 %	\$ 10,346,469	73.2 %

The required schedule of funding progress included in the Required Supplementary Information presents multiyear trend information about whether the actuarial value of plan net assets is increasing or decreasing over time relative to the actuarial accrued liability. Actuarial valuations involve estimates of the reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2012.

## NOTES TO FINANCIAL STATEMENTS

---

### **NOTE 7. RISK MANAGEMENT**

The Authority is exposed to various risks of loss related to: torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority carries commercial insurance for these risks of losses as well as other risks of loss such as workers' compensation insurance and general property and liability insurance.

There have been no significant reductions of insurance coverage from coverage in the prior year, and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

### **NOTE 8. OTHER POST EMPLOYMENT BENEFITS**

#### **Plan Description**

The Henry County Water Authority Postretirement Benefit Plan (the "OPEB Plan") is a single-employer defined benefit post-retirement health care plan, or other post employment benefit (OPEB) plan. The OPEB plan is based upon the policy that is contained in the Henry County Water Authority Employee handbook which outlines the eligibility, cost to participants, and other administrative matters. The policy is maintained at the discretion of the Authority.

#### **General**

The following brief description of the OPEB plan terms is provided for general information purposes only.

#### **Retirement Options/Benefit Provisions**

The Authority offers medical (including Rx) coverage to eligible retirees and their spouses. The benefits are the same as those offered to active employees. For retirees who are not Medicare eligible, the medical benefits are provided through an HMO or Multi-Choice plan. The Authority pays a portion of the retiree and dependent premiums for medical coverage. Once retirees become Medicare eligible, the medical benefits are provided through a Medicare supplemental plan. The Authority pays the entire premium for the retiree. The retiree must pay the entire premium for dependent coverage. The retiree is responsible for purchasing Medicare Part A & B coverage. The Authority offers dental coverage to eligible retirees and their spouses. The Authority pays the dental insurance premium for the retiree. The retiree must pay the entire premium for dependent coverage. The Authority offers vision coverage to eligible retirees. The retiree must pay the entire premium for coverage.

**NOTES TO FINANCIAL STATEMENTS**

---

**NOTE 8. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)**

**Eligibility**

Eligible participants for Other Post-Employment Benefits include retirees who retire from active service after age 55 and completion of 10 years of service. Additionally, the employee's years of service plus age must also equal 75 or more.

**Fund Membership**

The following schedule (derived from the most recent actuarial valuation report) reflects membership for the OPEB Plan as of July 1, 2012.

Active participants	208
Retirees and beneficiaries	19
Total	227

**Contributions**

Henry County Water Authority contributed an actuarially determined amount to the OPEB Plan's trust. The annual required contribution is determined using actuarial methods and assumptions approved by the Retirement Plans Management Committee. It is intended to satisfy the minimum contribution requirements as set forth in GASB Statement 45.

Fiscal Year	Annual OPEB Cost	Actual Authority Contribution	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation End of Year
2009	\$ 1,292,062	\$ 64,106	4.96 %	\$ 1,227,956
2010	1,286,743	77,667	6.04	2,425,649
2011	1,387,139	84,840	6.12	3,727,948
2012	922,957	135,138	14.64	4,515,767
2013	792,968	147,300	18.58	5,161,435

**NOTES TO FINANCIAL STATEMENTS**

**NOTE 8. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)**

**Contributions (Continued)**

The Authority's annual OPEB cost and net OPEB obligation for the current year were as follows:

Annual required contribution	\$	866,988
Interest from net OPEB obligation		203,210
Adjustment of net OPEB obligation		<u>(277,230)</u>
Annual OPEB cost		792,968
Actual contribution to the plan		<u>(147,300)</u>
Increase in net OPEB obligation		645,668
Net OPEB obligation as of July 1, 2012		4,515,767
Net OPEB obligation as of June 30, 2013	\$	<u><u>5,161,435</u></u>

As of the most recent valuation date, July 1, 2012, the funded status of the OPEB Plan was as follows:

<b>Fiscal Year Ended</b>	<b>Actuarial Value of Assets</b>	<b>Actuarial Accrued Liability (AAL)</b>	<b>Unfunded AAL</b>	<b>Funded Ratio</b>	<b>Covered Payroll</b>	<b>Unfunded AAL as a Percent of Covered Payroll</b>
6/30/2013	\$ -	\$ 6,189,591	\$ 6,189,591	- %	\$ 10,840,131	57.1

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are computed using the actuarial cost method based on the substantive plan in effect as of July 1, 2012. Assumptions used in the July 1, 2012 actuarial valuation are included in the table on the following page:

## NOTES TO FINANCIAL STATEMENTS

### NOTE 8. OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

#### Contributions (Continued)

	<b>Actuarial Assumptions:</b>
Mortality	RP-2000 Combined Healthy Mortality Table, full projectional using Scale AA
Amortization	Level dollar amount of 30 years based on an open group
Discount rate for benefit obligations	4.5% per year
Inflation rate assumption	3.0%
Cost Method	Projected unit credit
Healthcare cost trend rates:	
Medical	9.0% graded by .5% per year to ultimate rate of 5.0%
Dental	5.0% graded by .25% per year to ultimate rate of 4.0%
Withdrawal	Various by age
Disability	None
Retirement rates by age:	
55	20%
56-61	10%
62	30%
63-64	10%
65	100%
Marital Status	80% of retirees are assumed to be married at retirement.
Age difference of spouses	Males are assumed to be three years older than females.
Plan participation	100% of future eligible retirees are assumed to elect coverage for themselves and their spouses.
Per capita claims cost	Gross per capital claims costs were developed from current premium equivalent rates, age adjusting using normative data and industry standard methodology, in accordance with the applicable Actuarial Standards of Practice.
Annual per capita retiree contributions:	
Medical (Premier Plan)	
Single	\$252
Retiree and spouse	\$504
Dental	
Single	\$31
Retiree and spouse	\$95
Retiree contribution increases	Retiree contributions are assumed to increase at the same rates as incurred medical or dental claims.
Medicare coordination	At 65 coverage assumed to be secondary to Medicare.

## REQUIRED SUPPLEMENTARY INFORMATION

### DEFINED BENEFIT PENSION PLAN SCHEDULE OF FUNDING PROGRESS

Plan Year Ended	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded AAL	Funded Ratio	Covered Payroll	Unfunded AAL as a Percent of Covered Payroll
12/31/2004	\$ 1,590,442	\$ 6,258,410	\$ 4,667,968	25.4 %	\$ 6,216,734	75.1
12/31/2005	2,813,334	7,655,401	4,842,067	36.7	7,173,951	67.5
12/31/2006	4,571,740	8,299,064	3,727,324	55.1	7,867,202	47.4
12/31/2007	6,818,481	12,134,018	5,315,537	56.2	8,955,377	59.4
12/31/2008	8,697,588	14,612,339	5,914,751	59.5	10,144,460	58.3
12/31/2009	11,295,607	17,180,226	5,884,619	65.7	10,685,904	55.1
12/31/2010	14,049,501	21,619,929	7,570,428	65.0	10,346,469	73.2
12/31/2011	16,361,499	24,234,961	7,873,462	67.5	10,276,891	76.6
12/31/2012	14,049,501	21,619,929	7,570,428	65.0	10,346,469	73.2

The assumptions used in the preparation of the above schedule are disclosed in Note 6 in the Notes to the Financial Statements.

## **STATISTICAL SECTION**

---

# STATISTICAL SECTION

---

This part of the Henry County Water Authority’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, required supplementary information, and supplementary information says about the Authority’s overall financial health.

<u>Contents</u>	<u>Page</u>
<b>Financial Trends</b> .....	<b>36 - 42</b>
<i>These schedules contain trend information to help the reader understand how the Authority's financial performance and well-being have changed over time.</i>	
<b>Revenue Capacity</b> .....	<b>43 - 54</b>
<i>These schedules contain information to help the reader assess the Authority's most significant local revenue sources.</i>	
<b>Debt Capacity</b> .....	<b>55 - 57</b>
<i>These schedules present information to help the reader assess the affordability of the Authority's current levels of outstanding debt and the Authority's ability to issue additional debt in the future.</i>	
<b>Revenue Capacity Information</b> .....	<b>58 - 60</b>
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place.</i>	
<b>Operating Information</b> .....	<b>61 - 64</b>
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the Authority's financial report relates to the services the Authority provides and the activities it performs.</i>	

Sources: Unless otherwise noted, the information in these schedules is derived from the Authority's financial reports for the relevant year. The Authority implemented GASB 34 in 2003; schedules presenting government-wide information (unless otherwise indicated) include information beginning in that year.

Note: Statistical schedules differ from financial statements because they usually cover more than one fiscal year and may present non-accounting data. These schedules reflect social and economic data and financial trends of the Authority taken directly from its records unless otherwise indicated.

## **FINANCIAL TRENDS**

---

These schedules contain trend information to help the reader understand how the Henry County Water Authority's financial performance and well being have changed over time.

## **COMPLIANCE SECTION**

---

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

---

**To the Board of Directors of the  
Henry County Water Authority  
McDonough, Georgia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the Henry County Water Authority (the "Authority"), a component unit of Henry County, Georgia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated December 4, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our report includes a reference to the change in accounting principle resulting from the implementation of Governmental Accounting Standards Board (GASB) Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position*.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

---

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Mauldin & Jenkins, LLC*

Macon, Georgia  
December 4, 2013

# HENRY COUNTY WATER AUTHORITY

## SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2013

---

### SECTION I SUMMARY OF AUDIT RESULTS

#### **Financial Statements**

Type of auditor's report issued

Unmodified

Internal control over financial reporting:

Material weaknesses identified?

\_\_\_ yes X no

Reportable conditions identified not considered  
to be material weaknesses?

\_\_\_ yes X none reported

Noncompliance material to financial statements noted?

\_\_\_ yes X no

#### **Federal Awards**

There was not an audit of major federal award programs as of June 30, 2013 due to the total amount expended being less than \$500,000.

### SECTION II FINANCIAL STATEMENT FINDINGS AND RESPONSES

None reported.

### SECTION III FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS

Not applicable.

### STATUS OF PRIOR YEAR AUDIT FINDINGS

None reported.
