**VI. REPORT OF ATTORNEY**

Mr. Welch addressed the Board concerning the need to abandon sewer line easements on properties owned by Restaurant Holdings, LLC (Wendy’s @ Highway 155 and East Lake Road) and Eagle West, LLC located on Highway 155 @ Industrial Parkway). He explained that in both situations the sewer line serving these properties had been relocated and a new sewer easement conveyed to the Authority by the property owners. Mr. Welch explained that since the old sewer easement is no longer needed for public purposes, the Authority must take action to abandon the line and convey title back to the current property owner. He presented Resolution No. 2019-07 to authorize the abandonment of the old sewer line located on Restaurant Holdings (Wendy’s) property at Highway 155; and to authorize the Chairman to execute a quit claim deed in favor of Restaurant Holdings. He also presented Resolution No. 2019-08 to authorize the abandonment of the old sewer easement on the Eagle West LLC property and to authorize the Chairman to execute a quit claim deed in favor of Eagle West LLC. **VIII. OTHER BUSINESS**

Proposed Changes to Soil Amendment Regulations

Mr. Carter reported concerning his discussion with Agriculture Commissioner Gary Black regarding the Authority’s concerns with the proposed changes to the State’s soil amendment regulations. He advised that Commissioner Black acknowledged that he is aware of the Authority’s concerns and assured Mr. Carter that the proposed amendment of the regulations will be rewritten to address these issues.

Question Regarding Rebates to Developers who pay to Install Water/Sewer Lines

The question was raised whether the Authority has a policy in place that would provide rebates to private developers who come into the county and install water or sewer in an area that previously had no service; and whether new customers connecting to those service lines cost share in these improvements. Mr. Carnell advised that once a developer installs a line and conveys that infrastructure to the Authority, and the Authority accepts those lines, it becomes a part of the public system and anyone can tap in at their cost to obtain service. Mrs. Stidom expressed the opinion that the Authority is not working with developers to support the County's efforts to promote growth in the county. Mr. Welch noted the expense associated with expanding the Authority's sewerage system, but also pointed out that the Authority does enter into agreements with developers to cost-share on major projects that provide a system improvement for the Authority.
